

Sunny Days Children's Fund

Thank You for Your Support

Below are just some of the recent families we have been able to help for more details of the work we have been doing please visit our website at www.sunnydaysfund.org.uk

Tilly is a little girl with complex needs as a result of which her life is likely to be limited. In the short term her problems require over night and day time suction of her Kidneys and management of seizures. In the longer term Tilly's recurrent chest infections may well reduce her life expectancy. We were contacted by Tilly's adoptive mother requesting funding for an iPad with specialised apps for communication, education and also for entertainment.

Rhys has a chromosome condition called Monosomy 13q and Microcephaly which results in Rhys's communication being severely impeded. We were contacted by both Rhys's mother and the special needs school that he attends

requesting funding for an iPad.

The school had recently introduced him to an iPad and had seen some exceptional progress in his communication and advised us that if he had his own at home it would greatly expand his base communication skills.

Christian has been diagnosed with Autistic Spectrum Disorder and after receiving a request from his social worker we agreed to send Christian and his parents to our Holiday Home.

Mohammed has SCID (severe combined immunodeficiency disease). He was admitted to hospital as a planned admission but his expected discharge date is not known. We were approached by the family social worker to supply a grant for hospital travel costs we were pleased to help with this grant.

Brodie has complex medical needs related to her gut and endocrine system and requires specialized medical care and future surgery. Brodie has been admitted to hospital. We were pleased to supply a hospital travel grant to her family.

Erin has Down syndrome and hearing impairment. Erin is just beginning to walk and her parents want to convert their garden to give Erin a safe & secure place to play. We have agreed to help with funding towards a 'safe surface' to be installed in their garden.

Timothy was born with Hydrocephalus and has special needs. Timothy's mother requested a grant for educational toys and school uniform. We were pleased to supply the grant.

Olivia has Autism and extreme behavioural issues. We were pleased to offer Olivia and her family a week's break at our Holiday Home.

Kadir suffers with Treacher Collins Syndrome and we were pleased to offer Kadir and his family a week's break at our Holiday Home.

4 Cressing Road, Braintree, Essex, CM7 3PP.
